PROFESSIONAL SUMMARY

Computer Science graduate (VIT, 8.18 CGPA) currently working as an AI Rapid Build Engineer at TCS, building GenAI-powered applications using Azure OpenAI, LangChain, and LangGraph. Also experienced in React.js, Node.js, and Flutter, with production apps including a live teaching platform (300+ users) and a Play Store habit tracker(1k + downloads). Strong DSA fundamentals with great problem solving skill.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, C++, Java, SQL, HTML5, CSS3

AI / GenAI: Azure OpenAI, OpenAI API, LangChain, LangGraph, Streamlit, Prompt Engineering, RAG

Frameworks & Libraries: React.js, Node.js, Express.js, Spring AI, Flutter, Redux, Tailwind CSS

Databases & Tools: MongoDB, MySQL, Firebase, Git, GitHub, Postman, JWT, WebSocket, REST APIs, Zoom SDK

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Android (Kotlin, UsageStatsManager)

Professional: Problem Solving, Teamwork, Agile, Communication, Project Management

WORK EXPERIENCE

AI Rapid Build Engineer

8 Months – Present

Tata Consultancy Services (TCS)

- Designed and built GenAI-powered applications using **Azure OpenAI** and **OpenAI API**, integrating LLM capabilities into enterprise workflows.
- Developed multi-step agentic pipelines using **LangChain** and **LangGraph** for orchestrating tool calls, retrieval, and conversational flows.
- Rapidly prototyped and demoed AI proof-of-concepts using **Python** and **Streamlit**, accelerating stakeholder feedback cycles.
- Collaborated in an Agile environment to rapid-build and iterate on client-facing AI solutions, translating business requirements into working prototypes within tight timelines.

Full Stack Developer Intern

4 Months

Ethnus – MERN Stack Industrial Training

- Engineered responsive, component-driven UIs using React.js with hooks and state management, cutting page load time by optimizing rendering cycles.
- Integrated RESTful APIs from Node.js/Express backend into frontend, enabling seamless data flow across components including auth flows and dynamic dashboards.
- Led Agile code reviews; drove improvements that cut team bug rate by approximately 20%.

PROJECTS

CRAMIX | *React.js · Node.js · MongoDB · WebSocket · JWT · Zoom SDK*

- Shipped a full-stack live teaching platform serving 300+ college students; built real-time chatrooms via WebSocket and live video sessions via Zoom SDK integration.
- Implemented JWT-based authentication with role-based access control (RBAC) for secure multi-user sessions.
- Designed responsive, mobile-first React.js UI; improved user engagement by 40% over static alternatives. Deployed on Vercel.

AHabit – Habit Tracker App | *Flutter · Dart · Kotlin · Hive · Home Widgets · Local Notifications*

- Independently built and published a cross-platform habit tracker to Google Play Store with home screen widgets, daily streak tracking, and smart reminders.
- Resolved a Kotlin Int/Long type mismatch in SharedPreferences for real-time widget sync; achieved sub-100ms UI response times.
- Built offline-first functionality using Hive for local persistence and optimized notification scheduling to deliver a fast and reliable user experience.

EDUCATION

Vellore Institute of Technology (VIT), Vellore <i>Bachelor of Technology in Computer Science</i>	2021 – 2025 <i>CGPA: 8.18 / 10.0</i>
Pinewood School, Saharanpur <i>Senior Secondary School (Class XII)</i>	2019 – 2020 <i>86%</i>
Pinewood School, Saharanpur <i>Secondary School (Class X)</i>	2017 – 2018 <i>80%</i>
GMAT Score: 695 / 800 <i>≈ 98th Percentile (Top 2% Globally)</i> Demonstrates strong analytical, quantitative, and verbal reasoning.	

ACHIEVEMENTS & ACTIVITIES

Management Team Member – Otaku Club VIT	Jan 2023 – Present
- Organized 5+ community events for a 200+ member club, managing end-to-end logistics and engagement activities. - Solved 200+ DSA problems on LeetCode and Coding Ninjas (C++ & Java). - Solo designed, built, and shipped AHabit to Google Play Store as an independent developer. - Finished MERN Stack Industrial Training at Ethnus, delivering hands-on full-stack project milestones.
